

SHIKHA RAJESH

PRODUCT & UX RESEARCH | HCI + DATA

+1 236 877 2491 | [Email](#) | [LinkedIn](#) | [Portfolio](#)

EDUCATION

University of British Columbia | Vancouver, BC | Sep. 2022 - Present

B.Sc. Integrated Sciences - Computer Science + Data Science | Fourth-year student

Relevant coursework: Advanced HCI, Human-Computer Interaction, Databases, Statistics, and Reproducible Data Science.

RESEARCH AND TECHNICAL SKILLS

Research: Semi-structured interviews, surveys, task analysis, cognitive walkthroughs, usability testing, experimental design, thematic analysis, qualitative coding

Analysis: Descriptive statistics, mixed-factorial ANOVA, correlation analysis, evidence triangulation, R, Python, ggplot2, tidymodels

Design: Information architecture, user flows, conceptual modelling, interactive prototyping, Figma, FigJam, Qualtrics

SELECTED HCI RESEARCH

Tenant Town - Mixed-Method HCI Experiment | Jan. 2026 - Apr. 2026

Five-person CPSC 444 team | Research, prototype design, participant sessions, analysis, and reporting

- Designed and evaluated two navigation structures across mobile and desktop with 10 participants using a 2 x 2 mixed-factorial study; measured task time, misclicks, and backtracks.
- Combined mixed-factorial ANOVA and affinity-based thematic analysis; identified fourfold fewer mobile misclicks with Menu B as a directional result and a strong misclick-duration correlation ($r=.875$, $p<.001$).
- Translated converging evidence into recommendations to separate personal and community documents, revise home-page pathways, and run a larger follow-up that isolates learning effects.

Neighbourhood Notebook - End-to-End Product Research | Sep. 2025 - Dec. 2025

Five-person CPSC 344 team | User research, task analysis, prototyping, evaluation, and synthesis

- Translated research on short-term Vancouver residents into requirements for personalised discovery, trust signals, privacy, mobile access, and functional filtering.
- Developed conceptual models and a mid-fidelity Figma prototype; used cognitive walkthroughs, three pilots, think-aloud sessions, and post-task questionnaires to evaluate filtering and review flows.
- Improved navigation labels, filter placement, and review sequencing; documented limitations and recommended a narrower, higher-fidelity mobile evaluation.

LEADERSHIP AND EXPERIENCE

VP External & Marketing - Residence Hall Association, UBC | Mar. 2026 - Present

- Coordinate stakeholder communication and cross-campus initiatives across residence councils; mentor student leaders and turn varied needs into clear plans, materials, and follow-through.

Marketing Director - UBC Undergraduate Statistics Society | Jun. 2025 - Present

- Translate statistical concepts into accessible student-facing communication and use engagement evidence to refine campaign content and outreach.

Corporate Relations Chair - UBC Science Undergraduate Society | May 2023 - Apr. 2024

- Synthesized stakeholder needs into materials and workflows for 30+ partner relationships, securing more than \$7,000 in sponsorship support.
